MEMORANDUM FOR ALMAJCOM/CEP/CEC
11WG/CE

FROM: HQ USAF/ILEH
1260 Air Force Pentagon
Washington DC 20330-1260

SUBJECT: Change to AFI 32-6002, Family Housing Planning, Programming, Design, and Construction, 27 May 1997

Paragraph 1.12.3.2 of AFI 32-6002 currently states: "The non-general officers quarters maintenance and repair threshold, set at $15,000: Places an annual obligation limit on **major** maintenance and repair and alteration work, accomplished by job order, work order, or contract, on all non-general officers quarters units." The word **"major"** is being deleted and being replaced with part of paragraph 1.12.3.1 of AFI 32-6002 which "places an annual obligation limit on **total cost** for maintaining, repairing, and making minor alterations."

Therefore, AFI 32-6002 paragraph 1.12.3.2 is being revised to state: **"Places an annual obligation limit on total cost for maintaining, repairing, and making minor alterations, accomplished by job order, or contract, on all non-general officers quarters units. All maintenance for non-general officers quarters including routine work and change of occupancy maintenance (COM) is counted toward the congressional threshold."**

This revision is effective immediately. We will incorporate this change in the next revision of AFI 32-6002, *Family Housing Planning, Programming, Design.* Our POCs are Lt Col Maria Dowling, DSN 664-4041 and Mr. Jim Dunn, DSN 664-4253.

EMMITT G. SMITH, Colonel, USAF
Chief, Housing Division
DCS/Installation & Logistics
